CAREER OBJECTIVES

As a Lecturer, my professional objective is to provide interesting and dynamic teaching techniques that will spark students' interest and knowledge of ICT ideas. I aim to keep up with the newest advances in ICT in order to present my students with relevant and practical information that will prepare them for the ever-changing digital world. Furthermore, I hope to create a collaborative and inclusive classroom climate in which students feel empowered to explore, experiment, and improve their ICT skills. In addition, I seek chances to contribute to curriculum development by proposing interdisciplinary projects that foster critical thinking and problem-solving abilities.
